REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable over the cited prior arts because said prior arts do not disclose or make obvious a glycolic acid copolymer comprising (a) 80 to less than 95 mol % glycolic acid monomer units, (b) 5.0 to 20.0 mol % non-glycolic, hydroxycarboxylic acid monomer units, and (c) 0 to 0.10 mol % diglycolic acid monomer units; said copolymer having weight average molecular weight of 50,000 or more. The process of preparing the copolymer comprising steps (A)-(C) as claimed is not disclosed by the cited prior arts. Iwamoto et al 5,759,583 discloses poly(lactic/glycolic) matrices wherein the ration of L:G is from about 100:0 to about 25:75. Takayanagi et al 4,859,763 et al discloses preparation process of lactic acid-glycolic acid copolymer containing 50-60 mol % of lactic acid unit and 40-50 mol % glycolic acid unit. Tanaka et al 4,683,288 and 4,677,191 also disclose a copolymer of lactic acid and glycolic acid having a weight average molecular weight of not less than 5,000 wherein the content of glycolic acid is about 5-40 pbw. Nevin 4,273,920 discloses polymerization process and product which is a copolymer of lactic-glycolic acids, said copolymer having MW of about 6,000 to about 35,000. The content of glycolic acid therein is 5-40 pbw.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
